German Education Portal

Central Access Point to Scientific Information

Literature

Services are offered in connection to references, spanning the search in indexes, publication of Open Access full texts, to services targeting a delivery of international titles.

Research Data

The service allows comprehensive search of data and instruments in research on education, information on research data management, and an opportunity to provide your own data and instruments for re-usage.

Research Information

An overview of current developments: thematic dossiers, information concerning young scientists and researchers, statistics, institutions, promotion of research and international aspects of educational research.
